## CSC336 Web Technologies - Lab 1: Semantic HTML Scaffold

### Lab Statement

**Difficulty:** Easy **Covers:** Lectures 3-4 **Folder:** lab-1/

Before you design your own CV in Assignment 1, practice the raw skeleton: build a semantic HTML5 skeleton (no styling required) for a generic e-commerce homepage - correct <header>, <nav> with at least 4 links, a <main> containing three <section>s (featured products, categories, newsletter signup), and a <footer> with at least three columns of links. Validate your HTML with the W3C Validator and include a screenshot of a clean validation result in your completion PDF.

**Deliverables in lab-1/:** index.html and your completion PDF.
